General Information

FINANCING OF TIPS

TIPS Contractor Paid Fee

The total cost of the TIPS program, in most cases, is primarily funded through an administration fee paid to TIPS by the awarded contractors. The fee is based on actual contractor project sales. Contractor will pay the fee on the actual invoiced and paid sales to TIPS members. Fees are not assessed to contractors for shipping cost, required bond cost, or any taxes that may be applicable. TIPS establishes a fee for each solicitation for proposals that is in the best interest of TIPS and its members.

The fee schedule for agreements awarded under this solicitation is 2%.

Term of Agreement and Renewals

The Job Order Contract (JOC) agreements have a different statutory requirement for Contract term of years. The initial term of the JOC agreement is restricted to two (2) years by statute. Awarded agreements may be extended for two (2) additional consecutive one-year terms. The first one (1) year extension is automatic unless either party exercises its right to termination as provided in the JOC Vendor Agreement. The second one-year term extension may be executed with the agreement of both parties. THIS CLAUSE CONTROLS OVER ANY OTHER TERM IN ANY OTHER PART OF THIS SOLICITATION. TIPS reserved the right to solicit proposals at any time it is in the best interest of TIPS and/or its members.

Termination

TIPS or the awarded vendor may terminate an award under this RCSP at will for cause or no cause for convenience. SPECIFICATIONS and PRICING FORMAT

Specifications include installation of ROOFING and materials as applicable.

Depending on the scope and circumstances, the pricing of this work may be required by Texas Government Code §2269 to be procured by a method enumerated in the statute. The method permitted by a purchasing cooperative such as TIPS is the Job Order Contract (JOC) method. The statute requires the use of a unit pricing model and the unit price book TIPS specifies is the RS Means price book. The statute also requires the pricing to be submitted as a coefficient of the Unit Price Book's line item prices. The JOC pricing form provides for your coefficient and a markup for material items not listed in the Unit Price Book.

Pricing

It is the intention of TIPS to establish an agreement for delivery of installation and ancillary services that are considered by the TIPS member as a public work construction project for ROOFING. Due to the varied scope and nature of these types of projects, TIPS members in various jurisdictions have different interpretations of what is and what is not a public work construction project requiring the Job Order Contracting (JOC) procurement process under Texas Statutes. Therefore, TIPS is providing the option for members that require the JOC process to procure those services relating to this solicitation using this contract. **FAILURE TO PROVIDE THE JOC PRICING SHEET WITH YOUR PROPOSAL MAY LIMIT THE USE OF YOUR AWARD UNDER THIS SOLICITATION.** Proposers must provide pricing based on a multiplier coefficient of the R.S. Means price book sections for the categories solicited.

Wage Rates

TIPS members usually, depending on the jurisdiction, have to designate or follow specific wage rates for their construction projects. Many times, this is Davis-Bacon Act and sometimes it may be another local wage rate determination. Regardless, the contractor must comply with the designated wage rates and the RS Means Unit Price Book has taken into account the local wage rates for the geographic area.

Maximum Aggregate Contract Price

Texas Government Code §2269.403 (b) requires that the governmental entity shall establish the maximum aggregate contract price when it advertises the proposal. Because this solicitation is available for piggyback by multiple entities, there is no accurate method to project the maximum aggregate price. Therefore, an arbitrary maximum aggregate contract price for sales by all awarded contractors under this solicitation is set at \$10,000,000,000. This arbitrary figure is not a guarantee of any sales under the award and it should not be construed as an estimate of total sales during the contract period. If, and when the \$10,000,000,000 figure is reached, the awarded contracts will expire immediately and a new solicitation may be issued if in the best interest of TIPS and its members.

Job Order Contracting (JOC)

It is the intention of TIPS to establish a contract to furnish and/or deliver construction services using the Job Order Contracting construction delivery method. The work includes minor construction, repair, rehabilitation, alteration and maintenance services for a wide variety of colleges and universities, schools, cities, counties, healthcare and other government and non-profit agencies.

Unit Price Book (UPB) will be the current edition of RS Means Facilities Construction Cost Data at the time of the project acceptance – the published quarterly updates will be allowed.

Estimating Requirements: Awarded contractor must use Cost Works, JOC Works, RS Means Online, 4 Clicks, or other approved estimating software. Other software than one of the four software programs listed above must be approved by TIPS.

The Contractor shall furnish all necessary labor, materials, tools, supplies, equipment, transportation, supervision, management and shall perform all operations necessary and required for construction work. All work shall be performed in accordance with the requirements set forth in the resulting contract and each mutually agreed upon work request or purchase order issued by TIPS participating members.

A contract will be established with standard specifications and pricing based upon a coefficient that is applied to a Unit Price Book (UPB) from RS Means. When a specific project or job order is issued, TIPS member and the contractor will agree on the scope of work and the cost is determined by applying the coefficient to the appropriate units in the UPB. Pricing will be evaluated based upon completion of JOC Pricing Form.

JOC Pricing Form document must be downloaded from the "Attachments" section, completed and uploaded to the "Response Attachments" PRICING section.

Bonding

Proposer must provide a letter from their Surety company(ies) that specify the bonding capacity of the proposer. Bonding surety must be authorized to do business in the State of Texas and be listed on the Department of the Treasury's Listing of Approved Sureties (Department Circular 570) Bonding capabilities documentation must be scanned and uploaded to the "Response Attachments" BONDING section.

Job Order Contracting Definitions

CITY COST INDEX, Defined pricing indices published by R.S. Means (see R.S. Means) as local modifiers to the national cost data.

COEFFICIENT is the contractors' coefficient multiplier that is applied to the local city cost index and the total sum of line item estimates for each individual Job Order. It will include all overhead items such as office, safety equipment, vehicles and fuel, computers, communication devices, printers, programs, insurance maintenance, two percent TIPS management fee, final site cleanup and all contingencies.

JOB ORDER is a line item estimate taken from a job order proposal using the coefficient and R.S. Means, which upon agreement to by the TIPS member becomes a lump sum fixed price contract and a notice to proceed for the stated scope attached to the purchase order.

JOB ORDER CONTRACTING (JOC) is a variable term indefinite delivery, indefinite quantity contract for construction services on an on-call basis through negotiated line item delivery orders (job orders) to include under State of Texas minor construction, repair, renovation, alterations, maintenance projects and limited design for architectural and engineering services. It is based upon the contracts priced coefficient applied to the city cost index and the line items in the unit price book (RS Means). When the line items are agreed to it becomes a lump sum firm fixed price contract for that negotiated scope of services.

JOB ORDER PROPOSAL is the response from the contractor to the TIPS Member from the clients request for a specific project. It will contain the line item estimate for the project, as defined in the UPB, and include a written scope of work for services to be performed.

NON PRE-PRICED ITEMS are those items that cannot be found or reasonably compared to listed line items in the UPB.

PURCHASE ORDER is the TIPS member's approval providing the authority to proceed with the negotiated delivery order under the contract. Special terms and conditions as agreed to between the contractor and TIPS member will be added as addendums to the PO. Items such as certificate of insurance, bonding requirements, small or disadvantaged business goals are some of the addendums possible.

PREMIUM HOURS are defined as those hours not included in regular hours or recognized holidays. Premium hours are to be approved by the TIPS member for each delivery order and noted in the delivery order proposal as a line item during negotiations.

REGULAR HOURS are defined as those hours between the hours of 6 AM and 6 PM, local time to the location of the project, Monday thru Friday and not occurring on a listed holiday below in section entitled "Proposal Instructions" #3. These hours include any lunch or other meal period for workers. All time, whether regular or premium hours, are subject to all labor regulations, including overtime as required by law.

PROPOSERS FALLING BELOW A 70-POINT THRESHOLD ON THE EVALUATION SECTION WILL NOT BE CONSIDERED FOR AN AWARD.

Description, Specifications and Pricing

This awarded contract will use a job order contract (JOC) for a fixed term or maximum dollar value, whichever occurs first, in which a contractor is selected based on a competitive proposals to perform various separate job orders in the future, during the life of the contract. Contract award is based on the bid coefficient factor which the contractor will multiply against “pre-priced” R.S. Means unit price book. The bid coefficient factor represents all of the contractor’s costs (indirect and direct), overhead and profit. The other adjustment factor is updated annually based on the City Cost Index published for the closest location.

The ROOFING scope is exclusive to the contractor. The most important decision in administering the ROOFING contract is therefore the drafting of the scope. Because the contractor has been selected and the unit price is fixed (by the unit price book and the contractor’s coefficient factor), the ROOFING contract allows contractor input prior to design, which can expedite the work.

The Contractor shall furnish all necessary labor, materials, tools, supplies, equipment, transportation, supervision, management and shall perform all operations necessary and required for construction work. All work shall be performed in accordance with the requirements set forth in the resulting contract and each mutually agreed upon work request or purchase order issued by TIPS participating members.

A contract will be established with standard specifications and pricing based upon a coefficient that is applied to an R.S. Means Unit Price Book (UPB). When a specific project or job order is issued, TIPS member and the contractor will agree on the scope of work and the cost is determined by applying the coefficient to the appropriate units in the UPB. Based on the scope of work, the contractor may apply a coefficient less than the TIPS contractor coefficient, if agreed upon by the contractor and the TIPS member. Pricing will be evaluated based upon completion of JOC Pricing Form.

Enter a multiplier coefficient in the “All Divisions” field on the JOC Pricing Form. There are two sections listed for the coefficient: regular hours and after hours.

JOC Pricing Form must be downloaded from the “Attachments” section, completed and uploaded to the “Response Attachments” PRICING section.
